Happy St Paddy's Day!

Well, not much to proclaim about the gaming herein, so why not boost an unofficial holiday? I've already got the corned beef and the green beer dye ready.

Time to start thinking of the next replacement games. COLONIAL DIP could be over next time, or more likely, in June. SETTLERS, too, is nearing conclusion. RUSSIAN CIVIL WAR is attitudinizing down to a Red victory. So, we're looking at up to 3 pages to fill in the next six months. I suspect we could get quora for COL DIP and SETTLERS. AGE OF RENAISSANCE will work if we can scare up three more sign-ups. Any other favorites?

STANDBY ALERT! The following position might be available--send orders to try for it
"Boris XIV"-- Italy (Phil Reynolds has first dibs)
KINGMAKER -- Mythical Fog (apply to Mike Scott)
SILVERTON -- in Chris Hassler's zine, SOB, so contact him

NOTE: Dan Gorham has resigned. Wayne Morrison has assumed the German portfolio.

Fall 1901

MINAS MORGUL: Austria and England are the clear losers this season. Austria can eject the Russian dagger in his midsection so has some counterplay -- especially if a neutrality pact can be worked out with Italy to free up both A VEN and F TRI -- but where can the Brits find a foothold? A Russo-Turkish alliance is a very real possibility and could sweep the board. A Franco-German Pact is not well placed to stop it, especially if it first concentrates on taking out the Brits.

EMBASSY BEAT

France is in a period of isolationism. No alliance in the near future.

BORIS WORLD PRESS REVIEW

Vienna View: The foreign ministry decried the reckless Russian assault on innocent Austrian civilians in Galicia during the spring pansy festivals. "Our pansies are ruined!" Dutchess Marry was heard to lament. The attack was especially disheartening since it came on the heels of a firm commitment from the Russian government that they would help contain the Turkish government in light of the recent rise of religious extremism in Constantinople. "It seems that rather than following through on promises to help liberate Christians stranded in the Ottoman empire the Russians have chosen instead to sell their souls to the beast and help in the enslavement of their brethren" the Archduke said. "We cannot allow this attack to go unpunished and will free our peoples from the grip of Russian terrorists."

CLASSIFIEDS

LONDON: I do wish to congratulate Rick Copeland on his fine victory in the AoR game! His skills are one of the best - good luck to all Boris players in the BPA AoR pbem tourney.

KINGMAKER

Parliament Pt 1
Turn 7

KM 00-1
3-5-01

The factions:

- A: Phil Reynolds' The Knights Who Say "Neel"
 - B: Lee McConnell's Blue Falcon
 - C: Don Chinnery's Angevin
 - D: Dave Anderson's Blue Meanies
 - E: OPEN Mythical Fog
 - F: Greg Oswald's The All-Star
- GMing By Mike Scott The California Connection.

An Oop's correction by the GM, it is the Commons, not the Lords votes that count, even if the Noble is not at the Parliament.

Between turn happenings: Clifford, Fitzalan, and Stafford, all come into play and go to Parliament. Berkeley into play at Berkeley. Neville given control of Richard of York. Others moving to Carlisle, site of the Parliament: Courtney, Grey, Mowbray, Roos, Talbot w/George. And Stanley in response to the Writ, with Howard & Scrope already being @ Carlisle.

The Nobles and Ships: Holding in place: Cromwell & Greystoke @ Kingston, Duke of Lancaster @ St Albans, Audley, Bouchier, Duke of York, Herbert, Neville w/ King Richard, & Pole @ Kenilworth(c), Percy @ Helmsley, Le Christopher @ Penzance, Le George & Le Trinity @ Plymouth, Le Margaret @ Rochester, Le Nicolas @ London, and Le Swan @ Berwick.

There are 86 Lords votes, counting the 20 for the Chancellor of England & 10 for the Senior York. Only 51 of these are at Parliament. In Commons, there are 78 Votes total, and all of these can vote. Thus there would need to be 26 Yea votes in Lords, and 40 Yea's in Commons for approval. The first vote is for a Sole King, and this is by the most votes in both House's, in this case it would take 65 votes to approve a Sole King. For Richard of York, 28, for Henry of Lancaster, -0-, abstaining or failing to vote, 101. There will be no Sole King determined at Parliament.

Next, The Blue Meanies have been given knowledge of the three cards in the Chancery, and they propose this slate. Constable of the Tower of London to Stafford, Earl of Wiltshire to Howard, Duke of Essex to Grey.

Your next submittal will be the following:

Yea or Nay on the above, as a slate or each individually.

From the Knights Who Say "Neel" I would need their proposed slate for any of these that did not get approved.

From all Nobles at the Parliament, I need their orders on staying at the Parliament site of Carlisle, or returning to a home castle, and WHICH castle if more than one is listed on their card.

Should I receive enough votes to make a disposition of the Proposed Slate, I will send out by separate Flyer to all the players announcing the results. So Vote as soon as you've done your negotiations, and get the orders in.

After the 'Return from Parliament' game report, then the Event Cards for Turn Seven will be responded to, and into movement for that turn.
